מנשטער לחילול מעשר שני ורבעי.

All the separations of Terumos and Maaseros should take effect in accordance with the text set out in the Siddur 'Mekor HaBrocha'. All Maaser Sheini and Revai - it and its extra fifth - should be redeemed on a peruta of the coin set aside by Manchester Beis Din for the redemption of Maaser Sheini and Revai.

- Please note that for each type of fruit / vegetable a new separation is required.
- Produce that does not actually require separation cannot be used to carry out the Terumoh & Maaser separation for other products of the same type that do require. If in doubt whether one of the fruit / vegetable is actually produce of Eretz Yisroel (e.g. a mixed pack of peppers where some are Israeli produce and some are not) a new separation is required for each one.
